 **SOCIETE GENERALE**  
Equipment Finance

## Pavel Soldán

Industry & Vendor Manager

“Our experience of transport equipment financing stretches back for more than 20 years. Since entering the Czech and Slovak markets, we have financed almost 18,000 tractor units and semi-trailers and 3,000 buses, making this segment – at approximately 40% of our portfolio – our strongest. We specialise in new tractor units and trucks over 18 tonnes, buses, and special vehicles such as tankers and low loaders. Not only can we advise you on the right financial product for you, but we also understand the technical parameters involved.”

---

Transport is a key economic sector sensitive to the slightest of fluctuations. We offer flexible long-term financing for new equipment that you can repay from the income generated by your orders. Our sound relations and long-running cooperation with all top-brand importers and dealers mean that you reap unique benefits.

We are a market leader in the financing of transport equipment. We offer finance and operating leases, credit, and hire purchases. We work with suppliers to incorporate additional services and statutory payments into operating lease instalments. Whether you need to finance a single vehicle or you own an entire fleet, we know how to cater to your requirements. Purchase a modern fleet that you can depend on at all times.

## 5 reasons to rely on us

1. We work closely with importers and dealers of all of the market's major brands.
2. You can choose flexible financing terms in Czech crowns or euros, and there is no fixed advance payment.
3. We arrange comprehensive insurance coverage, including supplementary insurance.
4. By working with vendors, we can include additional services (a servicing contract, road taxes, radio licence fees, etc.) into your instalments.
5. Our consulting services benefit from years of market knowledge and an experienced sales team.
